

Tribal FQHC Alternative Payment Methodology (APM) Rates ¹	CY 2021 Rates
Dual Rate (Medi-Cal beneficiaries with full Medicare coverage or Medicare Part B only) ²	\$371.49
Non-Dual Rate (Medi-Cal beneficiaries that do not have Medicare Coverage or has Medicare Part A only)	\$519

¹ The APM was established by reference to payments to one or more other non-Tribal FQHCs with similar caseloads in each county.

² To illustrate using the amounts applicable in 2021: The “Outpatient Per Visit Rate (Excluding Medicare)” is \$519. The 42 USC 1395w-4 Medicare Prospective Payment System (PPS) rate calculated using the Geographic Adjustment Factor (GAF) for Locality #75 (Rest of California) is equal to \$184.39, which is the product of base PPS rate of \$176.45 multiplied by the GAF of 1.045. The 80 percent multiplier reduces this PPS rate to \$147.51 (the 20 percent reduction accounts for any coinsurance requirements that would be covered by Medi-Cal for dual eligible beneficiaries.). Thus the required payment is \$371.49.
